RIDE THE GOLDEN SPEED

SC610 GOLDEN HORSE EDITION External SSD

The external SSD has shrunk! The SC610 GOLDEN HORSE EDITION flash drive features USB 3.2 Gen2 transmission speed with read/write as high as 550/500MB per second. Its Type-A interface is compatible with a variety of computers. Beyond performance, the drive's elegant red-and-gold aesthetic showcases the Golden Horse totem, celebrating Year of the Horse heritage through functional design.

Powerful Storage

It is hard to imagine that a SSD can be so compact! The SC610 GOLDEN HORSE EDITION's USB 3.2 Gen2 transmission interface has a bandwidth of up to 10Gb per second. So, it only takes about 20 seconds to completely transfer a 10GB 4K high-definition video* file and it is backward compatible with USB 2.0 devices.

LEVEL UP to Breakneck Speeds

The SC610 GOLDEN HORSE EDITION has a transmission speed of up to 550/500MB per second, which is 5 times faster than regular flash drives. It outputs the same performance as an SSD. Just plug and play, and it can quickly read and write all types of large-capacity and small files. Its compact case is loaded with outstanding capabilities!

*This transmission rate is a theoretical value, actual performance depends on environment and conditions of use.

Carefree Capless & Cableless

The SC610 GOLDEN HORSE EDITION adopts a capless push-out USB connector, making lost caps a thing of the past while being cableless means convenient storage at the tip of your finger!

Generous capacity to meet any task

Hey! Do you have enough storage capacity? Shoot just a few films and your entire storage is immediately brimming with 4K quality video. The SC610 GOLDEN HORSE EDITION is available at a maximum capacity of 500GB, so there is no longer a need to worry about capacity. Whether curating portfolios, editing, or retouching files, storage is convenient and access lightning fast!
